proto space time rewriting the fabric of reality what if space and time as we have been taught it are not fundamental what if everything we thought we understood from gravity to consciousness is just a surface ripple a visible pattern riding on something deeper older and far more intelligent in proto space time david j l savage unveils a bold new theory that challenges the most sacred pillars of modern science seamlessly blending physics philosophy and poetic clarity this revolutionary book proposes that the universe we observe is not the foundation but the consequence a visible bloom atop a vast invisible root system he calls the proto space time field from this field savage argues arise not only space time gravity and matter but consciousness memory and the very structure of life itself with stunning clarity proto space time reframes dark energy not as a cosmic mystery but as a dynamic output of this deeper field gravity is unmasked not as a force but as an emergent illusion entanglement is recast as the universal scaffolding of all creation across 14 compelling chapters the book guides readers through the collapse of spacetime as a first principle a reimagining of the higgs field as a cosmic regulator the entropic engine of expansion misnamed dark energy how galaxies and spiral symmetry echo deeper field attractors a mind bending reinterpretation of black holes as quantum information vaults the future of artificial intelligence in a quantum aware universe and a radical synthesis one that reweaves physics with metaphysics drawing on both established science and visionary speculation savage presents a model that invites not only understanding but participation this is not a passive cosmos it is intelligent recursive self aware and we the observers are not separate from it but extensions of its living memory for readers of carlo rovelli brian greene and rupert sheldrake this book offers a rare fusion of rigour and imagination placing it squarely at the intersection of breakthrough science and spiritual inquiry it dares to suggest that the mind is not merely a side effect of the brain but a quantum phenomenon threaded into the very fabric of spacetime you are not in the universe the universe is in you proto space time is not just a theory it is a map to a new paradigm a call to witness the invisible to remember the real to ask not what the universe is made of but why it remembers creates and evolves at all whether you re a physicist philosopher poet or seeker then this book may just shift the lens through which you see everything

aimed at students of classics and of philosophy who would like a taste of the subject before being committed to a full course and at those who have already started and need to find their bearings in what may seem at first a complex maze of names and schools introducing greek philosophy is a concise lively philosophically aware introduction to ancient greek philosophy the book begins with the milesians in asia minor before moving over to the developments in the western greek world then focusing on socrates plato and aristotle in athens finishing with the hellenistic schools and their arrival in rome where the main ideas are set out in the latin poetry of lucretius and the prose of cicero the book eschews the method of most histories of ancient philosophy of addressing one thinker after another through the centuries instead after a basic mapping of the territory it takes the great themes that the greeks were engaged in from the earliest times and looks at them individually their development in argument and counter argument from the beginnings of recorded greek history through the various upheavals of tyrannies democracies oligarchies and kingships to their introduction into rome in the first century bc

how can japanese popular culture gain numerous fans in china despite pervasive anti japanese sentiment how is it that there s such a strong anti korean sentiment in chinese online fan communities when the official sino korean relationship is quite stable before 2016 avid fans in china are raising hundreds of thousands of dollars in funding to make gifts to their idols in foreign countries tabloid reports on japanese and korean celebrities have been known to trigger nationalist protests in china so what is the relationship between chinese fandom of japanese and korean popular culture and nationalist sentiment among chinese youth chen discusses how chinese fans of japanese and korean popular culture have formed their own nationalistic discourse since the 1990s she argues that as nationalism is constructed from various entangled ideologies narratives myths and collective memories popular culture simply becomes another resource for the construction of nationalism fans thus actively select interpret and reproduce the content of cultural products to suit their own ends unlike existing works which focus on the content of transnational cultural flows in east asia this book focuses on the reception and interpretation of the chinese audience

coming of age in paris in the 1920s film and stage actress lois moran was a rumored paramour of writer f scott fitzgerald and the inspiration for the character of rosemary in his tender is the night as a young girl lois moved to paris with her mother and thrived in the artistic and literary glow of the city she danced with the national paris opera at age 14 and also was cast in two french films samuel goldwyn on a european tour in search of new talent saw her work and was impressed he cast her in what would become one of the best known films of the era with her performance as laurel the emotionally conflicted daughter in stella dallas lois moran became an overnight sensation and took hollywood by storm and on her own terms the author corresponded with lois moran during the last five years of her life he had full and exclusive access to her journals scrapbooks and photos in telling the lois moran story buller illuminates the history of film theater and television he also includes a thorough and unique account of the actress s relationship with fitzgerald hardcover
